

**Date:** August 2022

**Subject:** Construction Update: Crows Landing Road Bridge Replacement Project

## **CROWS LANDING ROAD BRIDGE REPLACEMENT PROJECT**

OVER SAN JOAQUIN RIVER

Work activities on the Crows Landing Road Bridge Replacement Project are scheduled to take place on **Crows Landing Road** between **River Road/Marshal Road and South Carpenter Road** through September 30, 2023.

Work will take place weekdays generally between **Monday through Friday** from **6:30 a.m. to 4:30 p.m.** The County recommends that motorists use alternative routes whenever possible during construction to avoid delays.

Once completed, project improvements will:

- Improve Safety for Motorists
- Meet Structural & Geometric Standards
- Widen Travel Lanes & Road Shoulders

### **Construction Stages**

To minimize impacts and maintain traffic movement for travelers, construction is being conducted in two stages.

**Stage 1** of the bridge has been successfully completed with the opening of the Stage 1 portion of the new bridge and the reopening of Carpenter Road. One lane of traffic in each direction is now routed onto the new bridge.

**Stage 2** of construction officially kicked off in July 2022. This includes the construction of the north side of the new bridge, removal of temporary trestle (support framework) over San Joaquin River, and then roadway resurfacing work before the bridge opens.

Once complete, the new bridge will widen both travel lanes and road shoulders to improve safety for motorists. It will also meet Caltrans and American Association of State Highway and Transportation Officials' structural and geometric standards.

The bridge will be completed with full width for traffic in Spring 2023.

### **What to Expect**

#### ***August - October 2022***

Beginning in August, construction crews began demolition of the old Crows Landing Bridge and construction will begin on the north side of the new bridge.

This work includes:

- Removal of temporary trestle (support framework), substructure, and foundation of the old bridge over the San Joaquin River.
- Building falsework (temporary support framework) to prepare for the construction of columns on the north side of the new bridge.

### Construction Safety Moment – If You See Something, Say Something!

For the safety of the general public, construction sites should be accessed by authorized construction personnel only. Crossing safety barriers, not obeying safety signage, or trespassing onto a construction site can be very dangerous. If you see suspicious behavior, please call our project hotline at (209) 683-5071 or email us at [info@crowslandingbridge.com](mailto:info@crowslandingbridge.com).

Keep your community safe by:

- Staying out of construction sites
- Obeying construction signage and flaggers
- Taking detours when necessary
- Driving safely and obeying reduced speed limits on roadways in construction zones

We appreciate your cooperation!

## Potential Impacts

During construction, access to local property owners will be maintained and potential road closure near properties will be coordinated on an individual basis. In addition, public safety access will be maintained at all times throughout construction. Local property owners and the traveling public may experience:

## Stay Updated

We apologize for the traffic impacts this work may cause and thank you in advance for your patience.
