

PROJECT OVERVIEW

Work activities on the Crows Landing Road Bridge Replacement Project continue to take place on **Crows Landing Road** between **River Road/ Marshal Road and South Carpenter Road** through November 30, 2023.

Work hours are generally between **Monday through Friday** from **6:30 a.m. to 4:30 p.m.** The County recommends motorists use alternative routes whenever possible during construction to avoid delays.

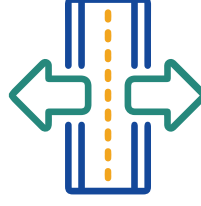

Once completed, this project will:

- Improve Safety for Motorists
- Meet Structural & Geometric Standards
- Widen Travel Lanes & Road Shoulders

Improve Safety for Motorists

Meet Structural & Geometric Standards

Widen Travel Lanes & Road Shoulders

CONSTRUCTION STAGES

Construction is being conducted in two stages, to minimize impacts and maintain traffic movement for travelers.

STAGE 1 is complete with the opening of the new bridge and the reopening of Carpenter Road. One lane of traffic in each direction has been routed onto the new bridge.

STAGE 2 of construction officially kicked off in July 2022. This includes the demolition of the existing bridge, widening the new structure to accommodate a third traffic lane on the north side of the new bridge, and roadway resurfacing work before the bridge opens.

Once completed, the new bridge will feature wider travel lanes and road shoulders to improve safety for motorists. It will also meet Caltrans and American Association of State Highway and Transportation Officials' structural and geometric standards.

In Fall 2023, the removal of temporary trestle (support framework) over San Joaquin River will complete the project.

The bridge will be completed with full width for traffic in November 2023.

WHAT TO EXPECT THROUGH JUNE 2023

FEBRUARY – MAY 2023

Recent rain has significantly impacted the construction work. Crews will continue construction of the east side of the new bridge once flooding subsides.

This work includes:

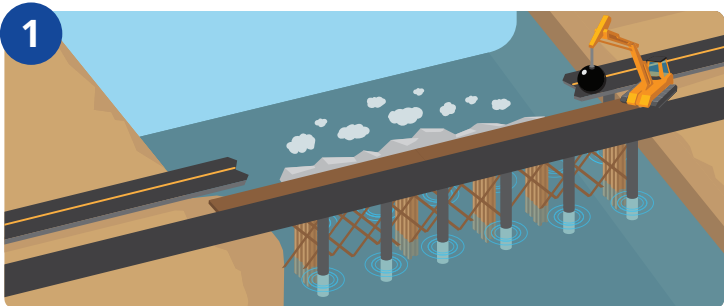

- Completing the foundation substructure.
- Erecting falsework (temporary support structures) to prepare for new concrete bridge to be poured.

MAY – JUNE 2023

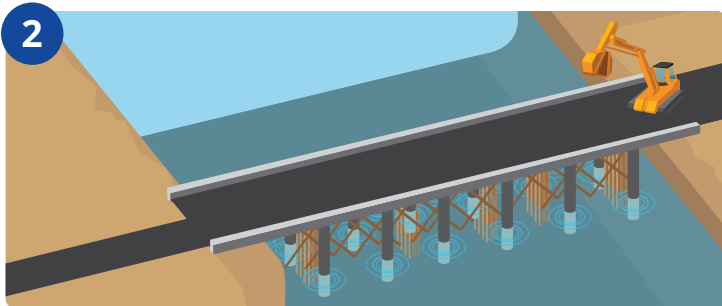

Crews will construct the Stage 2 superstructure, including formwork, rebar, concrete, prestressing, and barriers for the new bridge.

Additional work includes:

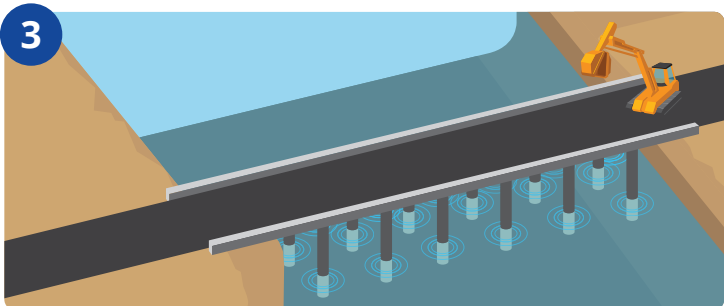

- Pouring the concrete deck for the new bridge.
- Begin installing barriers and railings on the new structure.

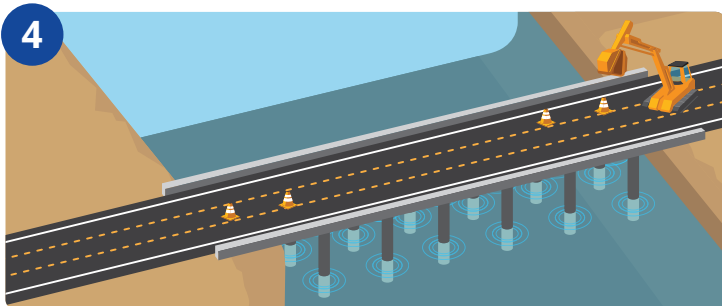

Removal of the old bridge substructure and foundation; Building temporary support framework.

Forming exterior girder (support beams).

Removal of the temporary support framework.

Roadway work.

CONSTRUCTION SAFETY MOMENT — IF YOU SEE SOMETHING, SAY SOMETHING!

For the safety of the public, construction sites should be accessed by authorized construction personnel only. Crossing safety barriers, not obeying safety signage, or trespassing onto a construction site can be very dangerous. If you see suspicious behavior, please call our project hotline at (209) 683-5071 or email us at info@crowslandingbridge.com.

Keep your community safe by:

- ☑ Staying out of construction sites
- ☑ Obeying construction signage and flaggers
- ☑ Taking detours when necessary
- ☑ Driving safely and obeying reduced speed limits on roadways in construction zones

We appreciate your cooperation!

POTENTIAL IMPACTS

During construction, access to local property owners will be maintained and potential road closure near properties will be coordinated on an individual basis. In addition, public safety access will be maintained at all times throughout construction.

Local property owners and the traveling public may experience:

Noise & Dust

Lane restrictions
(one-way traffic control & onsite flaggers)

Traffic delays

The County recommends using alternative routes when possible, during construction.

Work will generally occur:
6:30 a.m. – 4:30 p.m.
Monday – Friday
& Weekends (occasionally)

STAY UPDATED

We apologize for the traffic impacts this work may cause and thank you in advance for your patience.
